

Place Value

Instructions: Learn the place value of the numbers below.

1	The place value of 5 is _____	0.351
	The place value of 3 is _____	
	The place value of 1 is _____	

2	The place value of 4 is _____	35.482
	The place value of 2 is _____	
	The place value of 5 is _____	
	The place value of 3 is _____	
	The place value of 8 is _____	

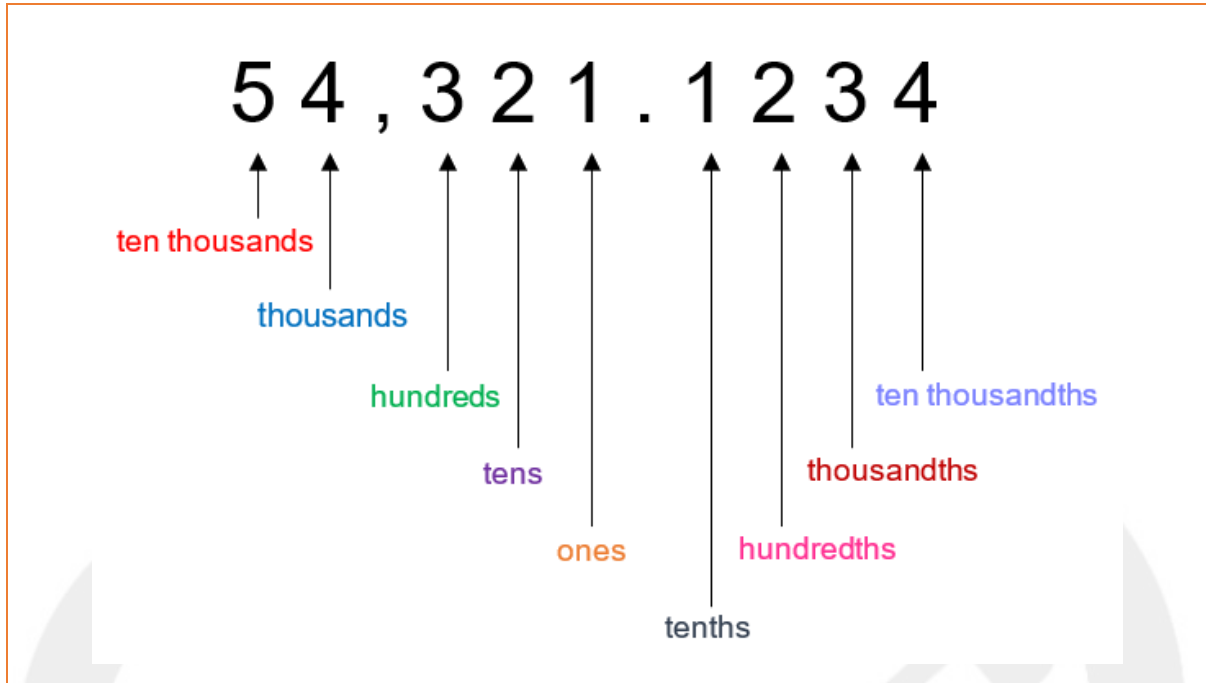

3	The place value of 6 is _____	7.2316
	The place value of 3 is _____	
	The place value of 1 is _____	
	The place value of 7 is _____	
	The place value of 2 is _____	

4	The place value of 9 is _____	3198.25
	The place value of 3 is _____	
	The place value of 5 is _____	
	The place value of 1 is _____	
	The place value of 2 is _____	
	The place value of 8 is _____	

5	The place value of 9 is _____	89562.147
	The place value of 2 is _____	
	The place value of 4 is _____	
	The place value of 8 is _____	
	The place value of 7 is _____	
	The place value of 1 is _____	
	The place value of 5 is _____	
	The place value of 6 is _____	

Place Value

Instructions: Learn the place value of the numbers below.

1	The place value of 8 is _____	0.684
	The place value of 6 is _____	
	The place value of 4 is _____	

2	The place value of 2 is _____	42.389
	The place value of 9 is _____	
	The place value of 4 is _____	
	The place value of 3 is _____	
	The place value of 8 is _____	

3	The place value of 9 is _____	5.7419
	The place value of 4 is _____	
	The place value of 7 is _____	
	The place value of 1 is _____	
	The place value of 5 is _____	

4	The place value of 2 is _____	98214.7
	The place value of 9 is _____	
	The place value of 8 is _____	
	The place value of 4 is _____	
	The place value of 7 is _____	
	The place value of 1 is _____	

5	The place value of 3 is _____	1476.5923
	The place value of 4 is _____	
	The place value of 6 is _____	
	The place value of 1 is _____	
	The place value of 9 is _____	
	The place value of 5 is _____	
	The place value of 7 is _____	
	The place value of 2 is _____
